

Charge Faster. *Save* \$200.

Sure, you can charge an electric vehicle (EV) on a standard household outlet.

But there's a better way.
Right at home.

PSEG LONG ISLAND

Save \$200 on a Level 2 EV Charger

A Level 2 electric vehicle charger can cut your charging time in half or more, with a full charge in as little as four hours.

Take charging to a new level:

Standard outlet (Level 1 charging):

Adds about 5 miles of range per hour charged

Level 2 charger:

As much as 20 miles of range per hour charged

For 2024, qualified PSEG Long Island customers who purchase a qualified ENERGY STAR® Certified Level 2 EV charger can receive a **\$200 rebate**. Customers in Disadvantaged Communities (DAC) or on our Household Assistance Program can receive a **\$300 rebate**. Learn more at psegliny.com/goelectric.

Our new Time-of-Day (TOD) rates offer even more benefits for charging at home with an electricity discount of up to 40% off standard flat rates for overnight charging. Explore TOD at psegliny.com/timeofday.
