

YES, YOU CAN AFFORD AN AIR SOURCE HEAT PUMP!

... and you can also **SAVE BIG!** Seasonal promotions and discounts from equipment manufacturers, enhanced rebates from PSEG Long Island and highly favorable financing programs are all now more available than ever.

WHY IS NOW THE IDEAL TIME?

The combination of these money-saving options, which apply to both purchase and installation, make today the ideal time to upgrade. Let's face it, upgrading any HVAC system is no minor investment. But all-season air source heat pumps are inherently more affordable because of the operational efficiencies they create throughout the year. These tangible benefits work together to yield a larger and faster return on your investment. And since heat pumps don't burn fossil fuels, your savings can be even greater. Plus, they can add value to your home.

ACT NOW AND BE SET FOR TOMORROW.

State, county and local codes are all changing. New York State is swiftly on its way to becoming a fossil-fuel-free energy state. This means renewable energy technologies like air source heat pumps are becoming mandatory statewide. That's why there are so many programs being offered to educate and motivate consumers. The move to renewable energy is inevitable, but the forces are aligned in your favor. This bodes well for your energy budget. Just ask around. More of your Long Island neighbors are making the switch to air source heat pumps every day.

PSEG LONG ISLAND

We make things work for you.

EQUIPMENT MANUFACTURER INCENTIVES

Competition among air source heat pump manufacturers is at an all-time high — not to mention the contractors who are qualified to install them. Shop around. Compare one against the other. Insist on the best deal for your home or business. Seasonal sales and discounts on equipment purchase, installation and preventative maintenance programs are generous and plentiful, and today's contractors are motivated to negotiate.

ENHANCED REBATES FROM PSEG LONG ISLAND

In terms of investment in renewable energy, PSEG Long Island is in lockstep with New York State. There's a wide range of benefits available to qualified residential and commercial customers who upgrade to air source heat pumps. Many of these offers can even be bundled together to multiply your savings. PSEG Long Island also offers a reduced Electric Heating Residential rate (Rate 580). The Electric Heating rate provides a 40% delivery rate discount for all usage above 400kWh/month during the non-summer months of October through May. Be sure your air source heat pump contractor is a PSEG Long Island Certified Home Comfort Partner and works with eligible heat pump manufacturers and models.

AFFORDABLE, FLEXIBLE, LOW-INTEREST FINANCING

Finally, there are numerous clean-energy-based grants, loans and low-income financial assistance programs available that can help ease out-of-pocket costs — whether from New York State, PSEG Long Island and/or the equipment manufacturers themselves. Your PSEG Long Island Certified Home Comfort Contractor will know which programs and variables apply to your circumstance and can help you navigate your options. You can also visit PSEGLINY.com/homecomfort for more information on available financing programs.

UPGRADE TO AIR SOURCE HEAT PUMP TECHNOLOGY.

To learn more about energy-efficient, money-saving and sustainable air source heat pumps, please visit PSEGLINY.com/homecomfort or call our Energy Efficiency Infoline at 1.800.692.2626 today. ACT NOW while valuable rebates and incentives are still in effect.
