**PROGRAM ANNOUNCEMENT**

**Document #: HPwES 2022-03**  
**Announcement Date: March 4, 2022**

**RE: 2022 Home Performance with ENERGY STAR Eligible Measures/Rebates**

Dear Home Performance Partners:

As the Long Island utility programs continue to evolve, so do the associated eligibility requirements for customer participation. As a result, PSEG Long Island will be changing the customer eligibility requirements for HPwES projects and respective rebates. **As of Monday, March 7<sup>th</sup>, 2022 customers with gas primary heating systems (regardless of CAC) will no longer be eligible for PSEG Long Island HPwES Market/HEMI rebates but should instead be referred to National Grid and their Total Home Comfort program, found here: [www.ngrid.com/totalhomecomfort](http://www.ngrid.com/totalhomecomfort).** In addition, National Grid will be hosting a contractor orientation on Tuesday, March 8 at 9am. If interested, please reach out to the program manager Suzy Falzarano [Suzy.ZambranoFalzarano@nationalgrid.com](mailto:Suzy.ZambranoFalzarano@nationalgrid.com) for additional details.

LMI customers with a gas primary heating system and CAC (meeting  $\geq 50\%$  of cooling load), will still be eligible to receive PSEG Long Island HPwES Enhanced rebates. In addition, Whole House heat pump combination projects will still be eligible for Market/HEMI HPwES rebates.

Therefore, all open gas projects currently in your pipeline that are eligible for a Market/HEMI rebate must have approval documents submitted for approval by 6pm March 9th. All closing documents for these projects must be submitted by 6pm April 4th. Projects not installed with completion documents submitted by this deadline will be referred to National Grid for consideration.

Sincerely,

*Steve Wagner*
