

PSEG LONG ISLAND
HOME PERFORMANCE WITH ENERGY STAR®
PROGRAM ANNOUNCEMENT

Document #: HPwES 2022-02
Announcement Date: February 23, 2022

RE: 2022 Home Energy Assessment Submission Requirements

Dear Home Performance Partners:

As of 2/23/22, The PSEG Long Island Home Energy Assessment (HEA) component of the Home Performance with Energy Star program will no longer require a signed Customer Information Form when submitting a completed HEA report. The current HEA report already requires a customer signature upon completion, so please just make sure the customer signs off on your completed HEA before submitting your documentation to the program team.

However, you are now required to add the customer account number on the signed HEA executive summary page.

A new HEA tool will be released with an account number field but in the interim, please simply write in the account number as indicted below. A follow up email will be sent when an updated HEA tool is available on the contractor website.

Each will receive an email with a list of HEA's currently "on hold" and may submit the HEA signature page with the new account number requirements for completion.

I certify that the Home Energy Assessment was conducted at the address listed above.

Customer Name: <i>(Print)</i>	<input type="text"/>	
Customer Signature	<input type="text"/>	Date: <input type="text"/>
Auditor Name*: <i>(Print)</i>	<input type="text"/>	
<small>*Auditor's Name, not Company Name</small>		
Auditor Signature	<input type="text"/>	Date: <input type="text"/>
